Are these ratios equivalent?

## $\frac{2}{5}$ and $\frac{10}{25}$

## Are these ratios equivalent?

$$
\frac{1}{2} \text { and } \frac{4}{8}
$$

## Are these ratios equivalent?

$$
\frac{3}{5} \text { and } \frac{12}{20}
$$

Are these ratios equivalent?

$$
\frac{4}{5} \text { and } \frac{8}{10}
$$

## Are these ratios equivalent?

$$
\frac{2}{4} \text { and } \frac{8}{16}
$$Yes

## Show your work

\#6

## Are these ratios equivalent?

$$
\frac{3}{5} \text { and } \frac{9}{25}
$$

Are these ratios equivalent?

## $\frac{1}{4}$ and $\frac{3}{8}$

## Are these ratios equivalent?

## $\frac{2}{3}$ and $\frac{4}{15}$

## Show your work

\#9

## Are these ratios equivalent?

## $\frac{3}{5}$ and $\frac{15}{25}$

Are these ratios equivalent?

## $\frac{3}{4}$ and $\frac{12}{16}$

## Are these ratios equivalent?

## $\frac{4}{5}$ and $\frac{16}{25}$

Yes

## Show your work

## Are these ratios equivalent?

$$
\frac{4}{5} \text { and } \frac{20}{25}
$$
